

WARNING

GF-2011

BP2512SVC

WARNING

- * This document is to inform you regarding the hazards of using a flame weeder in different situations.
- * This is by no means an exhaustive document, but a tool to better understand and avoid the hazards that could be linked with the use of such a tool.
- * You must read all instructions before using a flame weeder.

WARNING

- * Do not use in case of leaks or equipment failure. See a professional to repair or replace damaged pieces of equipment.
- * When using the product, make sure you are near a water source to intervene if need be.
- * Wear long sleeves and long pants for protection when using this product.
- * Adequately prepare yourself based on the task to be accomplished.
- * Do not mix with chemicals or burn weeds that have been sprayed with chemicals.
- * Do not burn noxious weeds since fumes resulting from their combustion may trigger allergic reactions.
- * It is crucial to follow all instructions provided in the operating manual before using one of these machines.
