

FELCO[®]
SWISS  MADE

FELCO
 **Power Blade**
Series[®]

Swiss Precision. Made to Last.

The **POWER BLADE SERIES** range of power tools is the result of **FELCO's** latest innovations.

These new-generation tools improve your productivity and comfort at work, while ensuring unequalled quality and cutting precision.

Equipped with innovative technologies, these new pruning shears are efficient and durable.

"This new range of power tools gives me power, precision and comfort. The new **FELCO XPRO** blade guarantees great speed and cutting precision while also offering superior durability.

The new compact and ergonomic carrying system lets me work in complete freedom.

All these improvements have contributed to improving my productivity, comfort and quality of work."

HARMONY

A range to suit your needs

Because everyone is different, **FELCO** has developed a complete range to suit everyone's specific needs. With three models having a cut capacity of up to 45 mm, the **FELCO** range is the widest available and offers maximum performance.

Today, the **POWER BLADE SERIES** range offers tools connected to your tablets or smartphones. A variety of accessories means you can customize your equipment to best suit your needs (extension poles, cutting heads, holster and more).

FELCO POWER BLADE SERIES
TECHNOLOGY

The **POWER BLADE SERIES** signature technology is focused on two key points:

- Promoting natural growth through precision and high-cutting performance.
- Unparalleled ease of handling and optimal ergonomics thanks to superior technology.

Lasting precision: FELCO XPRO blades

A revolution in pruning: our new **FELCO XPRO** blades designed and manufactured in-house by **FELCO** bring you continuous cutting excellence. Made of superior quality high-speed steel and featuring a new design, **FELCO XPRO** blades are made to provide longer cutting edge retention and extended life compared to conventional blades. More efficient and precise, they offer a superior cut quality to promote longer plant life.

Comfort: one carrying system, five possibilities

03

You will appreciate this new carrying system for being comfortable, compact and lightweight. It is now **twice as light and compact** as the previous generation, thanks to a new design and an intelligently combined materials. The new ergonomic straps are based on the structure of the back and fit the body perfectly. Very practical, it offers five positioning options for improved wearability for men and women.

Discover the technology that helps you!

Very easy to handle, optimum comfort and maximum performance.

Your tools become **SMART** when using the **FELCO** app:

- Set half-opening: off, 50%, 60% or 70%
- Use statistics (cuts)
- Battery level
- Services management
- Compatible on smartphones and tablets (Available on App Store and Google Play)

UNIQUE BLADE DESIGN

The new blade geometry offers greater precision and comfort and provides a high quality of cut.

HALF-OPENING MODE

Cutting speed can be increased by activating the half-opening mode. Adjustable to suit your needs at 50%, 60% or 70%. Simply pulling the trigger twice activates half-opening mode. It is factory set and can be configured using the **FELCO** app.

NEW FELCO XPRO

The high-speed steel (HSS) blade provides performance and efficiency. It offers longer working life and perfect cut quality. Up to twice as durable as a conventional blade.

MICROMETRIC SETTING

This setting permits optimal adjustment of the cutting head and ensures perfect cut quality.

SOFT-TOUCH

The pleasant soft-touch coating is more comfortable and gives better grip.

PROGRESSIVE TRIGGER

The progressive trigger gives you perfect control of blade movement. Tested for over 4 million cycles.

BRUSHLESS MOTOR

Technology offering the best performance and requiring simplified maintenance.

OPTIMUM PERFORMANCE

On **FELCO 802** and **FELCO 812** tools, the new mechanical drive improves tool performance by 10%.

NEW CARRYING SYSTEM

TWICE AS COMPACT AND ULTRA MODULAR

- 5 adjustable positions to choose from
- Maximum comfort
- Great freedom of movement
- Excellent support
- Padded belt
- Ventilated straps
- Adjustable straps
- Air circulation

COMPACT BATTERY

The new 880/195 lithium ion battery provides up to 25% longer battery life compared to the 880/193 battery. Compact and lightweight battery. 36 V/2.7 Ah.

EXTRA POWER BATTERY

Lithium-ion 880/194 battery for maximum battery life (up to 16 hours). 36 V/5.4 Ah.

ROTARY ON/OFF SWITCH

The power switch at the back of the tool is easily accessible. Patent Pending

FELCO
Power Blade
Series®

More efficient, more precise and easier to use, electronic pruning shears are now connected with the new range, FELCO POWER BLADE SERIES.

FELCO has put all its know-how and precision into every detail of this range: new design, optimum comfort and maximum performance. Thanks to the new **FELCO XPRO** blades manufactured with a more robust material, this new range offers a completely new cutting experience.

FELCO, world leader in professional pruning shears, has designed a new generation made to last, cut after cut.
